Romford Stadium

Marys new family said:

"Hello just thought we would drop you a quick update on Mary. She has brought such joy to our lives and is the loveliest companion you could wish for. She has very quickly become a member of our family, she loves long walks in the park and lounging around on the sofa. She's very curious when she can smell food in the kitchen and likes to come and watch what is going on. She has adapted so well to her new life and has made friends with all the other dogs in the building and at the park. Thank you so much for giving us the opportunity to have such a lovely dog in our lives. Greyhounds are truly the best."

## WELCOME BACK!

Day 1 (17th May 2021) was a great success here at Romford we had an amazing 74 people through the door!

A reminder for us all that we should be wearing a face covering at all times indoor and outdoor unless sat down eating or drinking! Please be mindful and respectful of such circumstances. Some people are less able to wear face coverings, and the reasons for this may not be visible to others.

We have been working behind the scenes doing lots of fun stuff. We have had Karen do an interview on Essex Radio, Romford Recorder have paid a visit to have a walk around (<https://www.romfordrecorder.co.uk/news/romford-dogs-reopens-on-may-17-7976182>) and a freelance photographer in on 17th May to take some pictures of the stadium and greyhounds. Once we have the pictures, we will share these (hopefully she got some good ones!).

We have got new frames for dog and bitch of the month – we are excited to see who the winner for May will be.

Rehoming!

As of 17th May we are now able to go back to the rehoming centres – Karen has recently visited the RGOA and we have a lovely story above from Mary a recent dog the RGOA have homed.

We have several vacancies here at Romford:

Betting Cashier

Bar and Catering Team Member

Paddock Manager

Please see [entaincareers.com](http://entaincareers.com) to view and apply for all vacancies.

It's so lovely to have the stadium back 'open' and a bit of normality has resumed.
